

STAVERTON PARK
HOTEL & GOLF CLUB

We're an electric car friendly hotel.

While recharging your batteries at our hotel, your car can get its energy back at our charge points.

The charging station has a capacity of up to 7.5kw, the flow depends on your vehicle. Maximum stay in the charging station is 4 hours.

Cars must be moved once your charging period has finished. If the vehicle remains longer than the four-hour period a charge of £10 per hour will be put onto your bill.

Your car will not be released until the payment has been made in full. Thank you so much.

CAR CHARGING

49p

PER KW

This is a not-for-profit scheme and all profits will be used to support our local charities.
